Core Values and Mission

Northampton Public Schools

Core Values
<p>1. Centrality of the Classroom: There is nothing more important than providing a high quality learning experience for our students. To achieve this, we must hire and retain high quality teachers and administrators who annually demonstrate success in student achievement with both qualitative and quantitative data. We must also preserve culture that respects instructional time, involves teachers in major decision making, curriculum development, and uses the capacity of our staff to strengthen the capacity of our staff.</p> <p>2. Respect for Human Differences: The acceptance and celebration of individual differences will be central in our discussions of policy, curriculum, and practice including: active anti-racism, advocacy for people with disabilities, support for English Language Learners, honor and respect for religious affiliations, sexual orientation, and all constellations of family systems. This core belief will be reflected in our classrooms, in our expectations that all students are engaged in maximum educational challenge, and will be reflected in our School Improvement Plans.</p> <p>3. Collegial Behavior: We will act in a way that promotes professionalism including active engagement in professional learning, sharing ideas and strategies, and building the capacity of our staff. We will support a structure in our schedule to provide for teachers to learn from each other about the art of teaching and effective instruction for student learning.</p> <p>4. Communication: Our administrative leadership team will continually and consistently make efforts to communicate with families, School Committee, and the community at large using a variety of methods to effectively, and factually, communicate successes and challenges in our schools.</p>

Mission
The mission of the Northampton Public Schools, in partnership with parents, guardians and the Northampton community, is to promote and support high achievement by each student in a safe, healthy, secure environment and to enable each student to become a critical thinker and a socially responsible citizen in a global society.

Theory of Action
If we develop and successfully implement a comprehensive district improvement plan, then core systems will be greatly strengthened and more closely aligned. Core systems with the greatest impact on student learning are: curriculum, instruction, supervision and evaluation, professional development and technology. As a result of our focus on the core systems, student performance will continuously improve and be sustained over time.

ACADEMIC INFORMATION AND REQUIREMENTS FOR GRADUATION

SUBJECT LOAD

All students are required to carry a full course load of four classes per semester

SCHEDULE CHANGES

Scheduling is conducted in a manner that offers students classes that they have chosen but also offerings that meet graduation requirements. ***Schedule changes are allowed with in the first 3 days of each semester.*** Schedule changes will be granted in very few cases and must have the approval of parents, current teachers, guidance counselor and Department Chairperson. Priority is given to situations involving graduation or academic misplacement. Schedule changes after the 5 day change period are only allowed with explicit administration approval.

PROGRESS REPORTS

Students are issued reports by teachers at the midpoint of each quarter (see grade and report card schedule for specific release dates) indicating the level of academic performance of each student during the period. Parents should consider these grades / reports as a barometer of academic performance and attitude, or as warning signal for students who are performing unsatisfactorily. **Parents should consider a conference with the teacher upon receipt of an unsatisfactory report. All teachers have been given voice mail accounts. Parents are encouraged to phone teachers to check on academic progress.**

Grade Availability On-line

Engrade is an educational technology tool that NHS uses to enhance communication of students academic status. Students and parents are provided a password that allows both parties to check, as often as desired, student progress in their academic classes. Teachers update Engrade information daily to weekly. During the 2013-14 school year NHS will be transitioning to a new software system for reporting grades on-line. Information will be provided to students and parents as the school proceeds with that transition. If anyone has questions or concerns regarding access to student grades on-line they should contact the students Guidance Councilor.

REPORT CARDS - Report Cards are issued to students four times each year approximately every ten weeks

A student who has received credit for a course may not receive credit a second time regardless of the grade he/she may receive in a repeat program. A student who has an F average at 10 weeks and continues at that level for the remainder of the semester may not obtain credit for that subject in summer school. A student must pass at least one quarter to be eligible for summer school.

Students not graduating with their class may return for another semester and receive their diplomas in January or June of the following year. Students who attend summer school and fulfill graduation requirements will receive diplomas at the end of summer school.

Academic Ethics and Integrity

Standards of academic ethics and integrity should be of the highest concern of every student, parent, and faculty member in the Northampton High School community. Everyone involved in the education of NHS students must be committed to upholding these standards. Academic Integrity is the demonstration of commonly accepted standards of honesty and ethics in a school community. Academic integrity requires that all academic work is the original product of an individual student or a group of students. This means that proper documentation must be used when borrowing material from other sources. Academic integrity also means that students may not copy work from others and submit it as their own. At Northampton High School academic integrity is expected of all students. Therefore, students must assume responsibility for maintaining honesty in all their work submitted in a course. Students should be expected to report incidents of academic dishonesty to the appropriate faculty member. Ways for students to demonstrate proper Academic Integrity:

1. Taking tests and/or completing assignments on the days tests are given or papers due.
2. Maintaining a good attendance record, especially on days when assignments are due.
3. Doing your fair share when engaged in group work.
4. Not completing work for one class while sitting in another or handing in the same piece of work to different classes for credit in each.
5. Making academics a priority over job responsibilities and/or sports team requirements.
6. Getting to school and classes on time.
7. Asking permission from the teacher before missing class to do work for other classes or activities.
8. Attending all outside obligations to the class (i.e. concerts and rehearsals) unless you have valid reasons.
9. Not discussing the questions and/or answers with a student who is taking the exam in another block.
10. Not plagiarizing homework and/or written work.
11. Not allowing students to copy your homework and not copying homework of other students.
12. Reading books assigned and not substituting published notes for actual texts.
13. Avoiding the use of online translators for papers in foreign languages.
14. Citing of web-based sites and information.
15. Following the NHS technology acceptable use policy.

Honesty

Honesty is important and is expected at Northampton High School. Students have the duty to be responsible and honest people. Dishonesty and cheating deprive people of their most prized possession: self-respect.

1. Students may not forge (write the signature or initials of another person) any note, pass or official paper work for themselves or for another student.
2. Students may not cheat on a quiz, test or other class work. Cheating is personally unethical and counterproductive to learning. Cheating includes:
 - a. Copying class work or homework, or providing answers to another student.
 - b. Plagiarism (using ideas or writings of another as one's own work, such as copying and pasting from an internet source).
 - c. Bringing answers into a testing area.
 - d. Giving test questions/answers to a member of a later class or receiving test questions /answers from an earlier class.
 - e. Copying from another student's test or knowingly permitting another to copy during a test.
 - f. Any other action intended to obtain credit for work that is not one's own.

Consequences for violating the Academic Ethics and Integrity Policy are listed in the Code of Conduct of the student – parent handbook

ATTENDANCE POLICY

Northampton High School strives to educate the whole student and prepare each student to be a productive and successful contributor to the community in which s/he lives. Taking responsibility for commitment is a valuable part of citizenship; prompt, consistent attendance is an attribute higher institutions and the 21st century workforce demand.

Regular and punctual school attendance is essential for success in school. Learning is a multi-faceted process optimized by a variety of classroom activities. Attendance is the cornerstone of this process. The educational experience offered at Northampton High School extends beyond textbooks and handouts, practice sessions, class discussion and direct instruction. Dynamic classroom interaction among teachers, students and content is crucial to student understanding and cannot be replicated by make-up work or extra-help after school. Each classroom is a learning community which depends on its members to contribute to the success of all. Being present maintains the consistency of the learning process, whereas absences interrupt that process, leaving student achievement compromised.

It is the responsibility of this school, as well as student's parents, to nurture and encourage strong work habits to prepare students to be responsible adults. **It is in this spirit that Northampton High School requires active student participation and active attendance.** We ask parents and guardians to be a part of this policy, to encourage and support their children to be in school to get the best education possible; therefore, parents and guardians pursuant with state law (chapter 76 section 1) have the legal responsibility to ensure that their children are in attendance each day school is in session. Furthermore parents and guardians must make every effort to schedule appointments, vacations and other activities outside of school hours.

A. ATTENDANCE VERIFICATION

School hours are 7:30 a.m.–1:59 p.m. **If it is absolutely necessary that a student be absent or tardy from school, parents should phone the high school office before 7:30 a.m. at 587-1344.**

Students who are absent from school whose parent has called in will be marked as absent verified. Students who are absent without a parent call will be marked as absence unverified. **Please note that absent verified only verifies that the parent acknowledges that their child is not in school and in fact is not truant. Absent verified does not excuse or waive the absence as it relates to the attendance policy.** Please see section D for details regarding absences that are waived from the attendance policy.

When a student is absent or tardy without an explanatory note or phone call, a representative from the Main Office will leave a recorded message via School Messenger on the home phone number. If a student is absent or tardy without parent permission, the student will be considered truant.

The student may receive disciplinary action for truancy / cutting class. Written work or examinations missed because of truancy will receive a zero and will not be allowed to do make-up work. Any student who fails to check into the main office when tardy or students that have been marked absent is seen in school or on school grounds will be subject to disciplinary action.

B. MINIMUM ATTENDANCE REQUIREMENTS

.5 credit course:	five (5) absences per semester
1 credit semester course:	nine (9) absences per semester
Full year course:	fourteen (14) per semester
Two (2) tardies equal one (1) absence	

C. ABSENCE LIMITS AND COURSE CREDIT

To earn credit in a course, students must achieve a passing grade and not exceed the minimum attendance requirements. Students, regardless of the passing grade, who exceed the minimum attendance requirements, will not receive academic credit for that class. Please see section B above for minimum attendance requirements

The absence limit for a student includes verified absences, unverified absences, as well as tardies (two tardies are equivalent to one unexcused absence.) Call in messages and notes from parents verify attendance **but do count** toward the attendance limit.

If a student enters a course after the first day of classes, the attendance requirement will be pro-rated.

A student losing credit for attendance will still receive a grade and will not be required to repeat the course. Specific credit totals are required for both promotion and graduation

Students who have exceeded the minimum attendance requirement are eligible for an attendance waiver. Please see section E for further information.

D. EXCUSED ABSENCES

- A doctor's note documenting the illness or a doctor's visit
- Parent note documenting family emergency, religious holiday or funeral
- A college admission's note documenting an admission's interview or orientation
- Documentation of court appearance
- An absence or trip that has been excused in advance from the Assistant Principal or Principal

*School sponsored events and field trips will not be counted toward the credit limit.

E. WAIVER OF ATTENDANCE REQUIREMENT

Students, who have lost credit or predict that they will lose course credit because of failure to maintain the necessary attendance requirements and have unusual absences (i.e. long term illness, hospitalizations, etc.) may request a waiver application of the policy.

Attendance waivers occur twice (2) a year; one each at the end of each semester. Announcements through intercom and daily bulletin will detail dates for each waiver period. Upon hearing that the waiver process has been initiated a student requiring a waiver will need to go to the main office and request a waiver. The main office personnel will give them a print out of their class attendance and a waiver application. Students are to take the waiver application and attached attendance print out home and complete the application with their parent. Parent signatures are required for the waiver. Incomplete waiver applications will not be accepted.

Students are to return the signed waiver application providing documentation of allowed absences (section D).

Students who provide a completed attendance waiver application and documentation for absences exceeding the minimum attendance requirement will receive an attendance waiver and have class credit restored. Students who do not complete waiver application and fail to provide documentation for absences exceeding attendance limit will not have credit restored.

F. TARDINESS TO SCHOOL

The warning bell will sound at 7:25 a.m. Students will report to their first period class by 7:30 a.m. If students are not in their seats when the starting bell (7:30) for class stops ringing, they are tardy and must report to the main office to receive a tardy slip to enter class.

Students who are tardy will not be allowed to enter class without having reported to the main office and in receipt of a tardy slip.

Any student who fails to sign in to school in the Main Office will receive disciplinary action.

Tardy to class after thirty minutes of class start time will be considered an absence.

G. TARDINESS TO CLASS

Classes will start punctually. If students are not in their classroom when the bell stops ringing, they are tardy. **Two tardies are equivalent to one absence.** Tardy to class thirty minutes after class start time will be considered as an absence. Tardies with in thirty minutes of class start time that are verified through a pass from main office, teacher, main office, guidance, nurse, etc. should be marked as present. Teachers are expected to address the student, call home, administer a detention and / or refer to Guidance Counselor and Assistant Principal regarding issues of chronic tardiness. Academic work and make up time will not be allowed or accepted for chronic tardies and unexcused absences.

Students will be given the opportunity to make up tardies through arrangement with their classroom teacher. Suggested tardy make ups are for 15 minutes. Attendance credit will be restored as soon as the teacher reports make-up to main office. **Students who are habitually tardy may lose the make-up privilege.**

H. DISMISSALS FROM SCHOOL

Student dismissals will be granted with prior written notice from the parent/guardian. Parent cooperation is the single most important factor in encouraging students to take a responsible approach to class attendance. In order to support the school in this endeavor, parents are asked not to request dismissal except for exceptional reasons.

Students are not to be dismissed by their parents without first notifying the Main Office. Students leaving school through parent dismissal without notifying the Main Office and signing out will receive disciplinary action

Dismissal for lunch is not supported for underclassman. Juniors and seniors are eligible to leave school during assigned lunch period with a signed lunch dismissal form. This form is available in the main office and must be signed and turned in to the main office before any student leaves NHS for lunch.

Students who are eighteen years of age and older are able to self dismiss upon the school receiving a signed parent permission/acknowledgement form (available in Main Office). All attendance policies are in effect.

I. HOSPITALIZATIONS

Students experiencing a hospitalization situation that results in missing school should contact their Guidance counselor as soon as possible. Documentation of a Doctor note / statement to verify placement will be required. Academic planning and possible services will be determined with the completion and submitting of The Physician's Statement for Home or Hospital Placement form. This form is available in the Guidance Department. Completed forms should be submitted to students Guidance Counselor as soon as possible. Students hospitalized for medical or mental health reasons are required to meet with their Guidance Counselor prior to returning to school so as to ensure an appropriate and successful return.

J. VACATION / TIME OUT OF SCHOOL

The Administration strongly recommends that students do not take vacations, sign up for camps, programs or activities while school is in session. If, however, the parents need students to be out of school for this reason, both students and parents are reminded that, except in unusual or extenuating circumstances approved by the Assistant Principal, such absences are counted against the minimum attendance requirements and may lead to course credit being withheld and / or make-up not being authorized. Students away on vacation must complete all the work necessary to stay current in a class. Teachers will be unable to recreate or replicate class lessons for vacationing students. Yearly school schedules are provided so as to allow for appropriate family and personal planning.

K. NOTIFICATION

The number of class absences is reported on both the mid-quarter Progress Reports and all Report Cards. Attendance letters will be sent from the Main Office notifying parents of three absences in a .5 credit course and three and five absences in a one credit course. Students who exceed the attendance policy or displaying chronic attendance issues will be required to meet with the Assistant Principal.

Automated phone messages utilizing Connect Ed are sent home daily for students who are absent or tardy with out parent notification

K. MAKE-UP WORK GUIDELINES

- Make up work is the responsibility of the student
- Make up work is allowed for excused absences (verified) only
- Students who are tardy or dismissed from school are responsible for missed class work, assignments, tests and quizzes for the day in question. Students are responsible to turn in any work to teachers that is due on the day they are tardy or dismissed. Missing a class due to tardiness or dismissal does not extend deadlines for due work.
- Students must make up any missed tests, quizzes or other missed work upon return from their absence. An absence of one day allows for a one day make-up period. Absences of two to three days will allow for make-ups to occur within five school days. Absences of four or more days will result in make-up work being completed within a reasonable timetable determined collaboratively by Administration, the teacher and the student. At all times the teacher may modify the above guidelines in order to meet the needs of specific assignments and for unique circumstances.
- Assignments, projects or any other work that had been assigned due on a day a student is absent is to be turned into the teacher upon return to school.
- Outside obligations such as work, activities, or athletics are not considered as reasons for not being able to complete make-up work within the designated time schedule.
- All teachers are available two times a week for extra-help sessions

ATHLETICS

NORTHAMPTON HIGH SCHOOL PHILOSOPHY OF ATHLETICS

The philosophy of athletics as offered at Northampton High School may be stated as the effort to encourage and to provide the maximum opportunity for athletic participation for physical, moral, mental and social growth in a competitive environment. The student may acquire new skills, contribute actively to promote good sportsmanship, tolerance, self-discipline, leadership and good school and community citizenship.

Emphasis on attainment of educational objectives in an athletic program does not de-emphasize competition. Winning is the spirit and goal of every competition, but it is not an end in itself.

ATHLETIC ELIGIBILITY

1. Academic

- All courses counted toward eligibility must be the equivalent of a one credit course. Courses can be combined to equal one credit, e.g., wellness 1 (.5) and photography (.5) are equivalent to one academic credit. A student must pass three of four subjects each semester equaling three credits.

- A student cannot at any time represent a school unless that student is taking courses which would provide credit equivalent to three 1 credit academic courses per semester.

-A student must secure during the last quarter preceding the contest a passing grade in three one credit classes.

(Quarter grades, not semester grades, determine eligibility)

-To be eligible for the fall quarter, students are required to have passed and received credit for the previous academic year the equivalent of six academic credits.

- The academic eligibility of all students shall be considered as official and determining only on the date when the report cards for that quarter have been issued to the parents of all students within a particular class.

- Incomplete grades may not be counted toward eligibility.

- A student who repeats a class upon which he/she has once received credit cannot count that subject a second time for eligibility.

- A student cannot count for eligibility any subject taken during the summer vacation, unless that subject has been previously pursued, failed and the make up grade has been recorded on the student's official transcript.

2. Attendance

- A student must be in school for three full class periods, unless prior permission of the Principal, Assistant Principal or Athletic director has been obtained, to be eligible on that day to participate in extra-curricular activities and athletics.

- A student suspended from school is not permitted to participate in athletics until the day they return to school from their suspension.

3. Conduct

- Student athletes must comply with expectations outlined in the *Code of Student Conduct* and those in the Massachusetts Interscholastic Athletic Association Rules and Regulations.

4. Physical: All athletes must have a physical that is dated within 13 months after their last dated physical to remain eligible during the season. Physical exams must be performed by a registered Physician, Physician's Assistant or Nurse Practitioner.

5. Concussion baseline screening: All Juniors and any new athlete to NHS must take and pass this screening.

6. Northampton Chemical Health Policy

Pursuant to the Massachusetts Interscholastic Athletic Association (MIAA) policy on Chemical Health Northampton High school Student Athletes and their parent / guardian must sign a contract verifying awareness of and agreement to adhere to the MIAA Chemical Health policy.

We are concerned about Northampton High School students who are using tobacco, alcohol, and other drugs. In our opinion, the Northampton High School Policy on Chemical Health, if taken seriously, is one way to curtail adolescent use. It is difficult, however, for us to enforce this policy on our own and therefore we are asking for your help.

When you and your son/daughter sign this form, please talk to him/her about the importance of this policy, and if possible, tell your son/daughter that you fully support the intent of this policy. Please let him/her know that if you become aware of hi/her using any non-approved substance, during the season, that **you will contact the athletic director with full expectation of the stated penalties.**

When coaches first hear of any violations of this Policy on Chemical Health, they are directed to contact the athletic director who will contact the parent/guardian with this information. Penalties will be assessed when confirmation of the violation has been received. Any violations that occur during school functions, including practices, games and travel situations will be subjected to the NHS School Code of Conduct.

Please understand that our athletes represent our school and community and we know that many of our student athletes do choose to be tobacco, alcohol, and other drug-free. We also know that many of these athletes would choose not to use, even if there was no policy.

We ask for your assistance as we try our best to address this one aspect of adolescent behavior. We look forward to working in partnership with you to provide a healthy and chemical free athletic culture at Northampton High School.

MIAA Chemical Health policy:

From the earliest fall practice date, to the conclusion of the academic year or final athletic event (whichever is latest), a student shall not, regardless of the quantity, use, consume, possess, buy/sell, or give away any beverage containing alcohol; any tobacco product; marijuana; steroids; or any controlled substance. This policy includes products such as "NA or near beer".

It is not a violation for a student to be in possession of a legally defined drug specifically prescribed for the student's own use by his/her doctor.

This MIAA statewide minimum standard is not intended to render "guilt by association", e.g. many student athletes might be present at a party where only a few violate this standard. This rule represents only a minimum standard upon which schools may develop more stringent requirements.

If a student in violation of this rule is unable to participate in interscholastic sports due to injury or academics, the penalty will not take effect until that student is able to participate again.

Minimum penalties: (All fractional part of an event will be dropped when calculating penalties)

First violation: When the Principal confirms, following an opportunity for the student to be heard, that a violation occurred, the student shall lose eligibility for the next consecutive interscholastic contests totaling 25% of all interscholastic contests in that sport. No exception is permitted for a student who becomes a participant in a treatment program. It is recommended that the student be allowed to remain at practice for the purpose of rehabilitation.

Second and subsequent violations: When the Principal confirms, following an opportunity for the student to be heard, that a violation occurred, the student shall lose eligibility for the next consecutive interscholastic contests totaling 60% of all interscholastic contests in that sport. All decimal part of an event will be truncated i.e. All fractional part of an event will be dropped when calculating the 60% of the season. If after the second or subsequent violations the student of his/her own volition becomes a participant in an approved chemical dependency program or treatment program, the student may be certified for reinstatement in MIAA activities after a minimum of 40% of events provided the student was fully engaged in the program throughout that penalty period. The high school principal in collaboration with a Chemical Dependency Program or Treatment Program must certify that student is attending or issue a certificate of completion. If student does not complete program, penalty reverts back to 60% of the season.

Penalties shall be cumulative each academic year, but serving the penalty could carry

over for one year. Or, if the penalty period is not completed during the season of violation, the penalty shall carry over to the student's next season of actual participation, which may affect the eligibility status of the student during the next academic year. (e.g. A student plays only football: he violates the rule in winter and/or the spring of same academic year: he would serve the penalty [ies] during the fall season of the next academic year).

Northampton Athletics and Concussions

- All Northampton athletes must take a base line concussion screening prior to their first day of practice/tryout.
 - **This test is administered through the athletic office to juniors and any new athlete attending Northampton High School.**
- Northampton Athletics will follow the Concussion and Return to Play Protocol listed below.

Concussion and Return to Play Protocol

Concussion Information: The Massachusetts Interscholastic Athletic Administration (MIAA) Board of Directors adopted a policy concerning concussions. This policy applies to all member schools including Northampton High School. The policy reads, **"ANY ATHLETE WHO EXHIBITS SIGNS, SYMPTOMS, OR BEHAVIORS CONSISTENT WITH A CONCUSSION (SUCH AS LOSS OF CONSCIOUSNESS, HEADACHE, CONFUSION, OR BALANCE PROBLEMS) SHALL BE IMMEDIATELY REMOVED FROM THE CONTEST AND SHALL NOT RETURN TO PLAY UNTIL CLEARED BY AN APPROPRIATE HEALTH CARE PROFESSIONAL."**

Any head injury can be a serious life threatening condition. It is important that the athlete and parent/guardian, pay careful attention to these symptoms:

- | | |
|---------------------------------|---|
| • headache | • nausea or vomiting |
| • pressure in head | • balance problems or dizziness |
| • double or blurry vision | • feeling sluggish, hazy, foggy, or groggy |
| • sensitivity to light or noise | • confusion, concentration or memory problems |

If any of these symptoms occur during any phase of the recovery process, whether in school, practice, or at home, the coach, trainer, nurse, or health care provider needs to be notified. ***Athletes who have not fully recovered from an initial concussion are significantly vulnerable for recurrent, cumulative, and even catastrophic consequences from a second concussion injury.*** Such difficulties are prevented if the athlete is allowed time to recover from the concussion and return to play decisions are carefully made. No athlete should return to sport or other high risk activities when symptoms of concussion are present and recovery is ongoing. ***Don't Hide It!*** It is better to miss a few games than a whole season.

The following procedures will be followed in the event an athlete receives a head injury:

- Athlete is removed from the contest or practice.
- The athletic trainer will conduct a *Standardized Assessment of Concussion*.
 - If athletic trainer is not available, coach will notify parents and recommend follow up with athlete's health care provider.
- The athletic trainer/coach will notify parent/guardian and director of athletics.
- Director of athletics will notify school nurse.
- School nurse will contact athlete's teachers and guidance counselor.

Any athlete exhibiting signs and or symptoms of a concussion will follow the Gradual Return to Play Protocol.

Gradual Return to Play Protocol:

Return to play will occur only after the following steps have been completed, **in the order** listed below:

1. Parent/Guardian reads and signs the *Concussion Information* and *Gradual Return to Play Protocol*.
2. Post injury Impact® test completed when athlete returns to school. Post injury Impact® test must be back to baseline before continuing with the *Physical Post Concussion Tests*. Parent/Guardian will be notified, and athlete referred to their health care provider, if first post injury Impact® test is not back to baseline. Post injury Impact® test will continue every five(5) days until baseline is attained.
3. Athletic trainer verifies that the *Physical Post Injury Tests* were administered and the athlete was asymptomatic. Athlete must finish *Physical Post Injury Tests*, even if athlete has been cleared by their health care provider.
4. Athlete may not participate in practice or play until written clearance by an appropriate health care professional: physician (MD, DO), physicians assistant (PA), or nurse practitioner (NP) **AND** with completion of the *Physical Post Injury Tests*.
5. Completed signature form returned to athletic trainer.
6. Athlete reads and signs the *Concussion Information*.
7. Athletic trainer notifies coach and gives copies of completed form to director of athletics and school nurse.

Physical Post Concussion Tests

The athlete will be given five physical post concussion tests, administered by a certified athletic trainer.

Only one test per day. Next test will be administered only when previous test is passed. These tests will take a minimum of five days.

Test 1: (to increase heart rate): Low Levels of physical activity. This includes walking, light jogging, light stationary biking, and light weight lifting (low weight, moderate reps, no bench, no squats)

Test 2: (to increase heart rate with movement): Moderate levels of physical activity with body/head movement. This includes moderate jogging, brief running, moderate intensity on the stationary cycle, moderate intensity weight lifting (reduce time and or reduced weight from the athlete's typical routine).

Test 3: Heavy non-contact physical activity. This includes sprinting/running, high intensity stationary cycling, completing the regular lifting routine, non-contact sport specific drills (agility with 3 planes of movement).

Test 4: Sports specific practice.

Test 5: Full contact in a controlled drill or practice.

2. ELECTIVE OFFICES OPEN TO STUDENTS

REGIONAL ADVISORY COUNCIL

Each spring two students are elected by the students to represent NHS at the Western Mass. Regional Office of the Massachusetts Department of Education. The students elected to this office attend meetings monthly during school days at the Western Mass. Regional Office. The RAC advises the State Board of Education on matters relating to students.

STUDENT ADVISORY COUNCIL

In the spring up to five students are elected by the student body to an Advisory Committee; the student with the most votes will act as Chairperson. This office is open to any student in the school and runs for a full year. Students seeking this position are expected to attend School Committee meetings and become familiar with policies and procedures and be prepared to advise the School Committee on matters relating to students.

CLASS OFFICERS

Each class will elect a President, Vice-President, Secretary, and Treasurer. These officers will work together to fundraise, address student concerns, improve school climate, and meet with Advisors.

HEALTH AND NURSE

HEALTH SERVICES

The mission of the health services department of the Northampton Public Schools is to promote and protect the health of students and staff by working together with parents, staff, and the community.

Each school in the Northampton Public Schools has a full time registered nurse. It is the responsibility of the parent/guardian to inform the school nurse of any health condition that may impact their child while at school. It is the responsibility of the school nurse, working with parents/guardians, teachers, and other staff, to develop an individualized health care plan for any student who has a significant health care need.

The school physician is available to the school nurses for consultation.

Guidelines for Illness and School Attendance: Should my child be in school with this illness?

Remember: Sick children belong at home. Well children belong in school. And the best way to prevent infection is frequent hand washing.

- Children with a fever over 100 should stay home until there is no fever for 24 hours. Call your doctor if your child has a fever with pain, rash, weakness, vomiting or diarrhea.
- If a child's eye is red with cloudy or yellow/green drainage, you should call the doctor during office hours. If an eye ointment is prescribed your child may return to school 24 hours after treatment began. All family members should wash hands frequently.
- Children with one event of vomiting or diarrhea (watery loose bowel movement) should stay at home until at least 12 hours has passed without any further events. Call your doctor if the vomiting or diarrhea continues or if your child also has a fever, rash, or weakness. All family members should wash hands frequently.
- Your child should stay home if she/he has a lot of ear pain. Call your doctor for treatment.
- If your child has a sore throat and a fever, or a severe sore throat without fever, he/she should stay home from school.
- If your child's cough is worse than you would expect with a cold, keep him/her at home. If he/she has hard time breathing or has a fever, call your doctor.
- If your child complains of a stomach ache, especially if he/she says it hurts to move and he/she does not want to eat, he/she should stay home. Call your doctor.
- If your child has impetigo (red, oozing blister areas with yellow-gold scabs on the face or body) he/she should stay home for as long as your doctor says.

When there is doubt in your mind about sending your child to school, consult your child's doctor. Remember to make sure that your child's school knows how to reach you during the day. Please give the school all available numbers: cell, work, relatives, friends, etc.

MEDICATIONS: PROCEDURES FOR PRESCRIPTION AND OVER-THE-COUNTER MEDICINES

All medications, prescription and over the counter (includes cough drops), may only be given by the school nurse with a doctor's order and a signed parent/guardian authorization. Forms are available from the school nurse. Antibiotics that are given for a limited time may be given without the MD order but the original prescription bottle must be given to the school nurse. Parents/guardians are required to bring in all medications and discuss the administration plan with the school nurse.

HEALTH SCREENINGS

Regular state mandated screenings are conducted in the following grades:

- Hearing – K-3, 7th and 10th
- Vision – K-5, 7th and 10th
- Heights and weights with BMK calculation – K, 4th, 7th, 10th
- Postural – 5th – 9th

If a referral is necessary the school nurse will inform the parent/guardian in writing. It is the responsibility of the parent or guardian to schedule the appropriate referral and to provide follow-up information to the school nurse. If assistance is needed to accomplish this parents/guardians are encouraged to contact the school nurse.

HEALTH RECORDS

The health record is considered a temporary record and it is the practice of the Northampton Public Schools that if a student transfers to another school district, the record will be transferred. The original health record may be given to the parent/guardian at the time of transfer. A copy of the immunization record will be kept for one year. It

is the responsibility of the parent/guardian to provide current immunization records and a copy of the most recent physical exam. When a student graduates from the high school the original health record will be stored for five (5) years and then destroyed. Students will be given a copy of their immunization records for future use. Parents/guardians of graduating seniors will be notified.

ACCIDENT INSURANCE - Insurance forms are issued at the beginning of each school year. If claims arise, parents should notify the insurance company immediately, requesting a claim form which should be completed and returned promptly to the insurance company. All participants in interscholastic athletics are required to carry accident insurance or have a letter waiving school responsibility filed in the Superintendent's Office.

EXCLUSION FROM SCHOOL

It is the Massachusetts state law that students who are not up to date with the immunization requirements for school entry be excluded from school. It is the responsibility of the parent/guardian to provide current immunization records in a timely fashion to avoid exclusion of their child. The school nurse is available to help parents/guardians in this area.

PHYSICAL EDUCATION EXCUSES

A student who wishes to be excused from physical education for a particular day shall present to the Physical Education teacher a signed explanatory note from home. Extended excuses will require medical documentation.

CONDOM AVAILABILITY

It is the policy of the Northampton School Department to provide condoms free of charge to students at Northampton High School. Condoms are available in the nurse's office.

CODE OF CONDUCT

We welcome the opportunity to share with you guidelines for student behavior at Northampton High School. The rules are intended to provide a productive and secure learning environment. So that students will know where they stand, this booklet provides information about expected and allowable behavior and the consequences for breaking rules. It also identifies support systems and services for those in need of help.

Become informed. Read this book. Your personal investment in a positive school climate is expected and required. The school has developed reasonable and clear standards and high expectations in order to foster self-discipline and to help students fulfill their potential. Students need to prepare to participate as productive members of a democratic society committed to the well-being of the individual and the community. We hope the *Code of Student Conduct* will be a useful document in achieving this goal.

The Northampton Public Schools are committed to promoting multi-cultural understanding, appreciation and harmony, to insuring that no student is denied access to any educational program or other activity of the Northampton Public Schools for reason of race, color, ethnic background, national origin, religion, sexual orientation, economic status or gender, and in compliance with all applicable state and federal law, including state and federal civil rights and anti-discrimination laws relating to the employment practices, the educational programs and all other activities of the Northampton Public Schools. Northampton Public Schools shall comply with all such law, all applicable federal and state law pertaining to the handicapped.

RESPONSIBILITIES OF STUDENTS

Each student shall adopt the code for good school citizenship as follows:

- a) take pride in learning, accomplishing and building a community that is diverse in sexual orientation, race, ethnicity, social class and religion
- b) adhere to school & community rules; attend school regularly
- c) respect all members of the community, including students, staff and faculty
- d) respect the property of others
- e) show consideration for the feelings, opinions and abilities of others
- f) accept responsibility for one's own actions
- g) develop habits of honesty, truthfulness and kindness
- h) tolerance in a diverse community of learners

RESPONSIBILITIES OF THE SCHOOL

The School Committee, administration and staff pledge their full support to maintain an atmosphere of academic freedom in which a student may develop intellectual integrity and personal self-sufficiency. In extending certain rights to students, it must be assumed that students in turn, will accept the responsibilities inherent in these rights. The Committee, administration and staff, will use their authority with justice and respect toward all the students.

In accordance with due process, any student who claims a grievance (unfair treatment) in the implementation of any school policy should first use all available means to settle the matter with the appropriate teacher, then the assistant principal or principal. After exhausting all available means at the building level, the student will have the right to appeal in writing within five (5) school days to the Superintendent.

ASSUMPTIONS ABOUT DISCIPLINE

Discipline, a prescribed pattern for orderly behavior, supports effective learning and intellectual growth. The discipline which produces responsible and self-disciplined adults is dependent upon co-operation between home and school. Therefore, parents, students, and staff are asked to share the following beliefs about discipline.

- All have the right to expect a safe and secure school environment. Therefore, all students, parents, and staff must know the rules of the school and the consequences for violating them. Clear and specific definitions of expected behavior help students take responsibility for their actions in school and in society.
- Excellence in instruction is the primary goal of the school. Therefore, prompt action must be taken when unacceptable behavior interferes with teaching and learning.
- We strive to teach mutual respect among all members of the school community by recognizing the dignity of each individual. Therefore, enforcement of rules emphasizes a positive attitude toward students, teachers, and parents, with the goal that students ultimately discipline themselves. The Principal and Assistant Principal will interpret these rules and will apply them with particular attention to the individual needs of each student. These standards governing appropriate behavior apply on the high school campus, as well as any athletic event, extracurricular event, field trip, or any school-sponsored event.

STUDENT CONDUCT AND DISCIPLINE: SPECIAL NEEDS STUDENTS and 504 's

Discipline of Special Needs Students

All students are expected to meet the requirements as set forth in this handbook. Massachusetts General Laws require that additional provisions be made for students who have been found by an Evaluation Team to have special needs and whose program is described in an Individualized Educational Program (IEP). The following additional requirements apply to the discipline of special needs students.

1. The principal or designee will notify the Special Education Office of the suspension of a special needs student and a record will be kept of such suspensions.
2. In accordance with special education regulations, when it is known that the suspension(s) of a special needs student will accumulate to greater than ten (10) days in a school year, a manifestation hearing will convene to determine whether the student's disciplinary behavior is a manifestation of his/her handicapping condition. The IEP will be reviewed to determine appropriateness of the student's placement or program.
3. If a special education student commits an offense which causes the student to be expelled from school, the school district continues to be responsible for providing the student with a free appropriate public education in another educational setting.
4. There are certain situations in which school personnel may order a change in placement of a special education student without regard to whether the student's behavior is determined to be a manifestation of the student's disability. These situations include:
 - a. carrying or possession a weapon
 - b. knowingly possesses or uses illegal drugs, sells or solicits the sale of a controlled substance
 - c. has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function.

Discipline for Students Not yet Found Eligible for Special Education

The IDEA protections summarized above also apply to a child who has not yet been found eligible for services under the statute if the district is "deemed to have knowledge" that the child was eligible for such services before the conduct that precipitated the disciplinary action occurred. The IDEA provides that a school district is "deemed to have knowledge" if: (1) the child's parent had expressed concern in writing to district supervisory or administrative personnel or the child's teacher that the child needs special education and related services; (2) the child's parent had requested an evaluation of the child to determine eligibility for special education services; or (3) the teacher of the child or other school district personnel had expressed specific concerns about a pattern of behavior by the child directly to the district's director of special education or to other supervisory personnel. However, a school district is not "deemed to have knowledge" if the district evaluated the student and determined that the child was not eligible for special education services or the child's parent refused an evaluation of the child or IDEA services. If the school district has no knowledge that a student is an eligible student under the IDEA before taking disciplinary measures against the student, the student may be disciplined just as any other student may be. If, however, a request is made for an evaluation to determine eligibility while the student is subject to disciplinary measures, the district must conduct the evaluation in an expedited manner. Pending the results of the evaluation, the student must remain in the educational placement determined by school authorities, which may include suspension or expulsion without services. If the student is determined eligible for an IEP as a result of the evaluation, the school district must provide the student with special education and related services in accordance with the IDEA.

Discipline of 504 Students

School personnel may not suspend a student on a 504 plan for more than ten consecutive days without a manifestation determination. Procedural protections for eligible 504 students are the same as those afforded to special education students.

VIOLATIONS/PENALTIES

The following *Code of Student Conduct* seeks to be fair and consistent. It will be impartially and consistently enforced to help provide a safe and orderly school in which students can learn and grow.

The Code of Conduct has been revised into six sections, according to specific categories: Weapons/Violence, Substances, Harassment/Civil Rights, Computer Violations/Plagiarism, "And More", Bus Transportation.

Other behavior not specifically covered in the following rules and regulations will be considered on an individual basis.

DETENTION - For the purpose of study or discipline, classroom teachers may require pupils to remain after school up to the length of one (1) class period. 24 hour notice must be given.

SECTION A: WEAPONS/VIOLENCE

VIOLATIONS: each subsequent offense is an additional offense and will carry over from year to year.

VIOLATIONS	PENALTIES/CONSEQUENCES
1. Possession of, use of, or threat to use a dangerous weapon, such as a gun, knife or other articles which may be determined to be dangerous (1993 Education Reform Act Law Chapter 71, Section 37H)	1st offense: Ten-day external suspension from all classes and school activities until an expulsion hearing is held (see Student Expulsion). In an emergency situation which requires the immediate removal of a student, the informal hearing will be held as soon after the suspension as possible.

The appeal letter must include the reason for the appeal. The student will be allowed to attend classes until a decision by the principal has been rendered. If safety is deemed an issue resulting in disciplinary action, the student will be suspended immediately with the appeal to be filed before the end of the suspension. The student will not be allowed to attend school until the suspension ends or the principal makes a decision. The principal's decision may be appealed to the Superintendent within **five (5)** days of the principal's decision. The appeal to the Superintendent shall only be on the basis that the hearing was not in accord with this Code and Handbook.

STUDENT EXPULSION

There are two laws pertaining to student expulsion. The first law (M.G.L. Chapter 71, Section 37H) pertains to some expellable offenses, such as possession of a dangerous weapon or controlled substance; assaulting staff or faculty; or being a non-performing student.

(a) Any student who is found on school premises or at school-sponsored or school-related events, including athletic games, in possession of a dangerous weapon, including, but not limited to, a gun or knife; or a controlled substance as defined in chapter 94C, including, but not limited to, marijuana, cocaine, and heroin, may be subject to expulsion from the school or school district by the principal.

(b) Any student who assaults a principal, assistant principal, teacher, teacher's aide or other education staff on school premises or at school-sponsored or school-related events, including athletic games, may be subject to expulsion from the school or school district by the principal.

(c) Any student who falls into the status of a Non-Performing Student may be considered for expulsion (refer to previous page.)

(d) Any student who is charged with a violation of either paragraph (a), (b), or (c) shall be notified in writing of an opportunity for a hearing; provided, however, that the student may have representation, along with the opportunity to present evidence and witnesses at said hearing before the principal.

After said hearing, a principal may, in his discretion, decide to suspend rather than expel a student who has been determined by the principal to have violated either paragraph (a), (b), or (c).

(e) Any student who has been expelled from a school district pursuant to these provisions shall have the right to appeal to the superintendent. The expelled student shall have **ten** days from the date of the expulsion in which to notify the superintendent of his appeal. The student has the right to counsel at a hearing before the superintendent. The subject matter of the appeal shall not be limited solely to a factual determination of whether the student has violated any provisions of this section.

(f) When a student is expelled under the provisions of this section, no school or school district within the commonwealth shall be required to admit such student or to provide educational services to said student. If said student does apply for admission to another school or school district, the superintendent of the school district to which the application is made may request and shall receive from the superintendent of the school expelling said student a written statement of the reasons for said expulsion.

The second law concerning student expulsion pertains to felony complaints or convictions (M.G.L. Chapter 71, Section 37H ½).

(a) Student expulsions pertaining to a felony complaint or conviction – Upon the issuance of a criminal complaint charging a student with a felony or upon the issuance of a felony delinquency complaint against a student, the principal may suspend such student for a period of time determined appropriate by said principal if said principal determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school. The student shall receive written notification of the charges and the reasons for such suspension prior to such suspension taking effect. The student shall also receive written notification of this right to appeal and the process for appealing such suspension; provided, however, that such suspension shall remain in effect prior to any appeal hearing conducted by the superintendent.

The student shall have the right to appeal the suspension to the superintendent (in regards to a felony complaint or conviction). The student shall notify the superintendent in writing of his request for an appeal no later than **five** calendar days following the effective date of the suspension. The superintendent shall hold a hearing with the student and the student's parent or guardian within three calendar days of the student's request for an appeal. At the hearing the student shall have the right to present oral and written testimony on his behalf, and shall have the right to counsel. The superintendent shall have the authority to overturn or alter the decision of the principal or headmaster, including recommending an alternate educational program for the student. The superintendent shall render a decision on the appeal within five calendar days of the hearing. Such decision shall be the final decision of the city, town or regional school district with regard to the suspension.

(b) Upon a student being convicted of a felony or upon an adjudication or admission in court of guilt with respect to such a felony or felony delinquency, the principal or headmaster of a school in which the student is enrolled may expel said student if such principal or head master determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school. The student shall receive written notification of the charges and reasons for such expulsion prior to such expulsion taking effect. The student shall also receive written notification of his right to appeal and the process for appealing such expulsion; provided, however, that the expulsion shall remain in effect prior to any appeal hearing conducted by the superintendent.

The student shall have the right to appeal the expulsion to the superintendent. The student shall notify the superintendent, in writing, of his request for an appeal no later than five calendar days following the effective date of the expulsion. The superintendent shall hold a hearing with the student and student's parent or guardian within three calendar days of the expulsion. At the hearing, the student shall have the right to present oral and written testimony on his behalf, and shall have the right to counsel. The superintendent shall have the authority to overturn or alter the decision of the principal or headmaster, including recommending an alternate educational program for the student. The superintendent shall render a decision on the appeal within five calendar days of the hearing. Such decision shall be the final decision of the city, town or regional school district with regard to the expulsion.

Upon expulsion of such student, no school or school district shall be required to provide educational services to such student.

SPECIAL EDUCATION INFORMATION

1. 603 CMR 28.00, the Massachusetts Special Education Law (previously Chapter 766), requires that additional provisions be made for students who have been found by an evaluation team to have special needs and whose program is described in an Individual Educational Plan. The IEP for every special needs student will indicate whether the student can be expected to meet the regular discipline code or if a modification is required. If a modified discipline code or disciplinary measures are required, these will be written into the IEP.

2. When a special needs student approaches 10 or more days of suspension in a school year, a review of the IEP will be held to determine the appropriateness of the student's program. The student's TEAM will be reconvened and will conduct a Manifestation Determination Hearing. If the Manifestation Determination does not find that the student's disability is related to his/her misconduct then the student will be disciplined in accordance with the foregoing discipline policies while being provided FAPE (Free Appropriate Public Education) as determined by the TEAM. If the TEAM determines that the disability is related to the student's misconduct, then the TEAM will take appropriate steps to ensure that the IEP is fully implemented and to address possible changes in the student's IEP.

3. If the suspension will result in an exclusion of more than 10 days in a school year, all the above steps will be followed, and, in addition, written notification and request for approval will be filed with the Division of Special Education of the Department of Education and a copy will be given to the student's parents/guardians.

SEARCHES BY STAFF

A. ADMINISTRATIVE SEARCHES OF STUDENTS, THEIR POSSESSIONS AND STUDENT LOCKERS/CANINE SEARCHES

When the administration has a reasonable suspicion of the presence of drugs, alcohol, weapons, or other contraband, it has the authority to search the student, his/her possessions, or his/her locker. Searches by school officials of students, their automobiles or belongings will be conducted in a way that protects the students' rights consistent with the responsibility of the school system to provide an atmosphere conducive to the educational process. In the absence of an administrator, teachers, advisors, and coaches are delegated to this authority. Belongings can be searched on field trips and at sporting events when there is a reasonable suspicion of the presence of drugs, alcohol, weapons or other contraband.

The right of inspection of students' school lockers is inherent in the authority granted School Committees and administrators. This authority may be exercised as needed in the interest of safeguarding children, their own and school property. Lockers are the property of the Northampton School Department. Students are hereby notified that the combination of their lock is maintained by the school administration and may be used, consistent with this policy, for access to any student's locker: When the administration has a reasonable suspicion of the presence of drugs, alcohol, weapons or other contraband, it may search a student, open and inspect any possessions and/or open and inspect the student's locker. A search will be conducted only by the administration. Parents/Guardians will be notified following the search. Lockers may be opened and inspected during scheduled clean-ups, during reassignment of student lockers, or for other reasonable administrative reasons necessary for administration and management of the schools. This policy is not intended to compromise any student's expectation of privacy. This policy does, however, notify students that their expectation of privacy in their locker is subject to the right of the administration to open and inspect lockers in accord with this policy.

MEMORANDUM OF UNDERSTANDING

To ensure a safe, violence free educational environment, the Northampton Public Schools and Northampton District Attorney's Office will work cooperatively to support "zero tolerance" for violence, weapons, drugs, harassment and civil violations, in accordance with State and Federal Safe Schools Acts. The Police will communicate regularly with the school administration to share information with the schools on arrest and other community concerns that affect the safety and general welfare of all students.

INTERROGATIONS BY POLICE

The schools have legal custody of students during the school day and during hours of approved extracurricular activities. It is the responsibility of the school administration to make an effort to protect each student's rights with respect to interrogation by law enforcement officials. Therefore:

1. When law enforcement officials find it necessary to question students during the school day or periods of extracurricular activities, the school Principal or his/her designee will be present when possible. An effort will be made to contact the student's parent or guardian so that the responsible individual may be notified of the situation.
2. If custody and/or arrest are involved, the Principal will request that all procedural safeguards, as prescribed by law, be observed by the law enforcement officials.

CORPORAL PUNISHMENT

Corporal punishment in public schools is illegal in Massachusetts. School staff may not hit, spank, or physically punish students. School staff members may, however, use reasonable force, if necessary, to protect students, other persons, or themselves from an assault by a student.

Such conduct shall include whipping, beating, branding, forced calisthenics, exposure to the weather, forced consumption of any food, liquor, beverage, drug or other substance, or any other brutal treatment or forced physical activity which is likely to adversely affect the physical health or safety of any such student or person, or which subjects such student or other person to extreme mental stress, including extended deprivation of sleep or rest or extended isolation.

Retaliation is defined as any form of intimidation, reprisal, or harassment by a school community member directed against another school community member for reporting or filing a complaint, for aiding or encouraging the filing of a report or complaint, for cooperating in an investigation under this policy, or for taking action consistent with this policy.

Reporting and Investigations:

Each member of the school community is responsible for reporting any observations of bullying or harassment, or credible information that such an act has taken place.

Reports of bullying or harassment incidents, including cyberbullying and/or cyber-harassment, occurring outside the scope (see above) of the school/district will be investigated to determine if the incident(s) resulted in a potential or actual disruption of the school learning environment for one or more individuals and/or the orderly day to day operations of the school.

Parent(s)/guardian(s) of both targets and alleged perpetrators of bullying or harassment incidents, including cyberbullying and/or cyber-harassment, will be notified of such incidents within a timeframe that will be set per the district’s procedures. Results of investigations of incidents will be communicated to parent(s)/guardian(s) of both targets and alleged perpetrators within a timeframe that will be set per the district’s procedures, and also within the restrictions of the Federal Educations Rights and Privacy Act. If additional time is required to conduct the investigation, this will be communicated to the parent/guardian (s) and no more than two such extensions shall be permitted under this policy.

Investigation of the complaint will be completed within 1-5 school days whenever possible, and any extensions to this time frame will be communicated to parents/guardians of the students involved.

District Procedures:

The Superintendent, and/or his/her designee, will define the guidelines and procedures to implement this policy in the district’s “Bullying and Harassment Prevention and Intervention Plan and Procedures”. The written plan and procedures developed by the the Superintendent, and/or his/her designee, to enforce this policy shall comply with applicable laws, including without limitation the Federal Educations Rights and Privacy Act, as amended.

The plan shall provide for schools, at each level, appropriate procedures for reporting and investigating incidents of bullying and/or harassment. Specific staff positions responsible for receiving and following up on reports will be identified in these procedures. The procedures will include a standard reporting form that may be used by any school community member for all incidents and types of bullying and/or harassment. The purpose of the reporting form is to trigger an investigation, which protects the safety of the target, bystanders, and/or concerned family/community members.

The plan will also specify procedures, in conjunction with the district’s memorandum of understanding with the Northampton Police Department and Northwestern District Attorney’s office, for notifying local law enforcement where criminal charges may be pursued against the perpetrator.

Within the requirements of FERPA, the guidelines and procedures to implement the Bullying and Harassment Policy shall include a specific amount of time within which parents will be informed of a complaint and a specific amount of time for investigations to be completed.

Additionally, the plan will include procedures for communicating with parent/guardians, including dissemination of prevention information; a professional development plan for all staff; and instruction for students at all school levels in social-emotional learning and violence prevention.

RELATING TO DISCRIMINATION

Sexual Harassment Policy

Policy:

It is the goal of the Northampton Public Schools (NPS) to promote a learning and working environment that is free of sexual harassment. Sexual harassment of employees or students occurring in the work or learning environment or in other settings in which employees and students find themselves in connection with their employment or school sponsored activities will not be tolerated by the NPS. Further, any retaliation against an individual who has complained about sexual harassment or retaliation against individuals for cooperating with an investigation of a sexual harassment complaint, is similarly unlawful and will not be tolerated. To achieve the goal of providing a learning and working environment free from sexual harassment, the conduct described in this policy will not be tolerated and a procedure has been provided by which inappropriate conduct will be dealt with, if encountered by students or employees.

Because the NPS take allegations of sexual harassment seriously, there will be a prompt response to complaints of sexual harassment and where it is determined that such conduct constituting sexual harassment has occurred, prompt action will be taken to eliminate the conduct and impose such corrective action as necessary, including disciplinary action where appropriate.

Please note that while this policy sets forth the goals of promoting a learning and working environment that is free from sexual harassment, the policy is not designed or intended to limit the authority to discipline or take remedial action for conduct which is deemed unacceptable, regardless of whether that conduct satisfies the definition of sexual harassment.

Definition of Sexual Harassment:

In Massachusetts, the legal definition for sexual harassment is this: "sexual harassment" means sexual advances, requests for sexual favors, and verbal or physical conduct of a sexual nature when:

- (a) submission to or rejection of such advances, requests or conduct is made either explicitly or implicitly a term or condition of employment or as a basis for employment decisions or decisions regarding student evaluation or participation in school programs or activities; or,
- (b) such advances, requests or conduct have the purpose or effect of unreasonably interfering with an individual's work or school performance by creating an intimidating, hostile, humiliating or sexually offensive environment.

Under these definitions, direct or implied requests by a supervisor for sexual favors in exchange for actual or promised job benefits such as favorable reviews, salary increases, promotions, increased benefits, or continued employment, constitutes sexual harassment.

The legal definition of sexual harassment is broad and, in addition to the above examples, other sexually oriented conduct, whether it is intended or not, that is unwelcome and has the effect of creating a work or learning environment that is hostile, offensive, intimidating, or humiliating to male or female workers/students may also constitute sexual harassment.

While it is not possible to list all additional circumstances that may constitute sexual harassment, the following are some examples of conduct, which, if unwelcome, may constitute sexual harassment depending on the totality of the circumstances, including the severity of the conduct and its pervasiveness:

- unwelcome sexual advances-whether they involve physical touching or not;
- unwanted sexual flirting;
- sexual epithets, jokes, written or oral references to sexual conduct, gossip regarding one's sex life, comment on an individual's body, comment on an individual's sexual activity, deficiencies, or prowess;
- displaying sexually suggestive objects, pictures, cartoons;
- stalking;
- unwelcome leering, whistling, brushing against the body, sexual gestures, suggestive or insulting comments;
- inquiring into one's sexual experiences; and
- discussion of one's sexual activities.

All students/employees should take special note that, as stated above, retaliation against an individual who has complained about sexual harassment, and retaliation against individuals for cooperating with an investigation of a sexual harassment complaint is unlawful and will not be tolerated by the NPS.

Sexual harassment may involve behavior which is student-to-student, student-to-staff, staff-to-student, and staff-to-staff.

Complaints of Sexual Harassment:

If any of the employees or students of NPS believes that he or she has been subjected to sexual harassment, the individual has the right to file a complaint with the NPS. This may be done in writing or orally.

All staff may report allegations of sexual harassment against them to the building principal or the direct supervisor or to the sexual harassment coordinator.

Any other person alleging sexual harassment may contact the sexual harassment coordinator. All reports of sexual harassment will be reviewed by the sexual harassment coordinator and referred as follows: Reports alleging sexual harassment by staff will be referred to the superintendent. All other reports will be referred to the principal of the school where the alleged harassment occurred. If at any time during an investigation a complaint concerning any abuse of a child is substantiated, then as mandated reporters the school department will file a 51-A with the Department of Social Services.

If you would like to file a complaint, you may do so by contacting:

Sexual Harassment Coordinator
Northampton Public Schools
212 Main Street, Suite 200
Northampton, MA 01060
Telephone: (413)-587-1331
FAX: (413)-587-1318

This person is also available to discuss any concerns you may have and to provide information to you about the NPS policy on sexual harassment and the complaint process.

Sexual Harassment Investigation:

When a complaint is received, the allegation will be investigated in a fair and expeditious manner. The investigation will be conducted in such a way as to maintain confidentiality to the extent practicable under the circumstances. The investigation will include a private interview with the person filing the complaint and with witnesses. The person alleged to have committed sexual harassment will also be interviewed. When the investigation has been completed, to the extent appropriate, the person filing the complaint and the person alleged to have committed the conduct, will be informed of the results of that investigation.

The building principals and the superintendent will refer complaints of sexual harassment to the sexual harassment coordinator for investigation.

Disciplinary Action:

If it is determined that conduct constituting sexual harassment has occurred, prompt action will be taken to eliminate the offending conduct. If it is determined that conduct constituting sexual harassment has been committed by a student or an employee, such action as is appropriate under the circumstances will be taken. Such action may range from counseling to termination of employment or suspension/expulsion, and may include other forms of disciplinary action. The consequences for students are outlined in the Student Handbook and Code of Conduct. The Northampton Public Schools will take whatever action is appropriate to preserve a learning/work environment free from sexual harassment from outside vendors and visitors.

State and Federal Remedies:

In addition to the above, if anyone believes that he/she has been subjected to sexual harassment, he/she may file a formal complaint with either or both of the government agencies set forth below. Using the NPS complaint process does not prohibit anyone from filing a complaint with these agencies. Each of the agencies has a short time period for filing a claim (EEOC-300 days, MCAD-300 days).

CIVIL RIGHTS / ANTI-DISCRIMINATION POLICY**INTRODUCTION**

This Civil Rights Policy is a formal statement of the longstanding commitment of the Northampton Public Schools to civil rights and to multi-racial and multi-cultural respect, appreciation and harmony.

In addition to the procedures for filing claims and the requirements for reporting violations provided in this Civil Rights Policy, students, staff and members of the community are encouraged to share with the Superintendent any concerns about civil rights in the Northampton Public Schools. Northampton Public Schools are committed to the vigorous enforcement of this Civil Rights Policy and the provisions of the Discipline Code of the Northampton Public Schools, being those provisions of the Discipline Code dealing with racist or other discriminatory behavior.

The word "staff" or the term "members of the staff" as used in this Civil Rights Policy means all employees of the Northampton Public Schools, whether members of the faculty, administrators or members of the non-instructional staff.

COMMITMENT TO MULTI-CULTURAL UNDERSTANDING, NON- DISCRIMINATION AND COMPLIANCE WITH LAW; STANDARDS OF CONDUCT

The Northampton Public Schools are committed to promoting multi-cultural understanding, appreciation and harmony, to insuring that no student is denied access to any educational program or other activity of the Northampton Public Schools for reason of race, color, sex, religion, national origin, *handicap, or sexual orientation and to compliance with all applicable state and federal law, including state and federal civil rights and anti-discrimination laws relating to the employment practices, the educational programs and all other activities of the Northampton Public Schools. Northampton Public Schools shall comply with all such laws, all applicable federal and state laws pertaining to individuals with a disability.

Students and staff of the Northampton Public Schools shall not, at any time, do or say anything that would, in any way, tend to cast aspersion on the race, color, sex, religion, national origin, *handicap, or sexual orientation of any individual or group or otherwise engage in racist or other discriminatory behavior.

504's

Section 504/ADA is an Act which prohibits discrimination against persons with a disability in any program receiving Federal financial assistance. The Act defines a person with a disability as anyone whom:

1. Has a mental or physical impairment which substantially limits one or more major life activities (Major life activities including activities such as caring for one's self) and performing manual tasks, (walking, seeing, hearing, speaking, breathing, learning and working)
2. Has a record of such an impairment
3. Is regarded as having an impairment

*added 5/98

In order to fulfill its obligation under Section 504, the Northampton School District recognizes a responsibility to avoid discrimination in policies and practices regarding its personnel and students. No discrimination against any person with a disability will knowingly be permitted in any of the programs and practices in the school system.

The school district has specific responsibilities under the Act, which include the responsibility to identify, evaluate, and if the child is determined to be eligible under Section 504, to afford access to appropriate educational services.

If the parent or guardian disagrees with the determination made by the professional staff of the school district, he/she has a right to a hearing under an impartial hearing officer.

The major function of the Northampton Public Schools is to provide the best possible education for all students in the Northampton Public Schools. An important part of that education is to motivate and guide students toward becoming responsible citizens in a pluralistic society; to develop an appreciation and respect for cultural, history and activities and contributions of persons and groups of different races, nationalities, sexes and colors. The curriculum of and the instructional materials used in the Northampton Public Schools shall comply with all applicable state and federal laws. No student in the Northampton Public Schools shall be denied access for reason of race, color, sex, religion, national origin, *handicap, or sexual orientation to any educational program or other service or activity of the Northampton Public Schools or in any other way be discriminated against for reasons of race, color, sex, religion, national origin, *handicap, or sexual orientation. Nothing contained in this Civil Rights Policy shall (i) prohibit the Northampton Public Schools from limiting participation in a sport (insofar as permitted by applicable law) to males or females, as the case may be, or from providing separate teams for males and females (insofar as permitted by applicable law), or (ii) require the Northampton Public Schools to offer a sport provided for one sex to members of the other sex, other than as provided by applicable law.

Northampton School Committee - Acceptable Use Policy for Staff and Students

The School Committee recognizes that knowledgeable use of computer technologies and the Internet are necessary skills in every aspect of modern day society. By providing Intranet and Internet access to staff and students, we promote educational excellence in the schools and facilitate resource sharing and communication, so that staff and students may access these systems to pursue intellectual activities, seek vast, diverse, and unique resources, access libraries, and engage in learning activities within a global community.

The intent of this policy is to frame the use of these networks only for purposes consistent with our educational mission. All school computers are to be used in a responsible, efficient, ethical, and legal manner. The codes of conduct of the schools apply to Internet activities, and this Acceptable Use Policy should therefore be considered an extension of the staff and students' codes of conduct and district policies. In order to provide a proper message to the community, staff-posted content on publicly accessible websites includes, but is not limited to, material that supports the curriculum and instruction, general information that supports student safety, growth, and learning, or public information of interest to others. We expect that such content shall be responsibly developed and professionally delivered, and correct for the target audience. Moreover, in order to maintain the safety of the Northampton Public School district's students, use of student work, pictures of students, or any other information that would allow for the identification of any student is forbidden without the express written permission of the parent or guardian of any student concerned. Student work may be published only as it relates to a class project, course, or other school-related activity.

Individuals who log on to the Internet at school are responsible for all activities while using their account. Therefore, users should not share passwords and should change their passwords frequently. Users should also exercise caution when revealing personal information. To ensure personal safety and the safety of others, users should not publish their home address, phone number, or any other confidential information over the Internet. If students experience any concerns over communications they have received from others over the Internet, they should seek assistance from staff or parents immediately.

In accordance with the Children's Internet Protection Act (CIPA), passed by the U.S. Legislature in January 2001 (Public Law 106-554), our schools shall employ filtering software to block access to inappropriate content on all computers with Internet access. Users will be restricted from accessing visual depictions of subject matter that is obscene, pornographic, or harmful to minors. Users should furthermore be aware that filtering software will not block ALL inappropriate websites (e.g. new sites that have not yet been Northampton School Committee - Acceptable Use Policy for Staff and Students added to the filter lists). Members of the school community shall report all inappropriate sites not blocked by the filters to a technology administrator for appropriate action. Filtering software may be disabled for users 18 and over by a technology administrator for legitimate research purposes.

Our schools have software and systems in place that monitor and record all Internet usage. The District will intermittently monitor Internet network traffic and other usage of electronic resources, for instance, by tracking destination URLs of individual users. Users should have no expectation of privacy when browsing the web, sending or receiving email, or using other electronic school resources. The District does provide email accounts for the purpose of school-related communication.

Our Users

Recognizing that collaboration is essential to education, The District may provide our users (staff/students/volunteers) with access to web sites or tools that allow communication, collaboration, sharing, and messaging among users. Users are expected to communicate with the same appropriate, safe, mindful, courteous conduct online as offline. Posts, chats, sharing, and messaging may be monitored. Users should be careful not to share personally-identifying information online.

Access to district network systems is a privilege, not a right. Unethical or illegal use of school computers, or use for other than legitimate educational use, will be cause for disciplinary action, including, but not limited to, revocation of network access privileges, suspension and/or referral to the police or other appropriate authorities.

Examples of such inappropriate uses include unauthorized access into school accounts or private files, destruction of others' files, harassment of students or staff, introduction of computer viruses, unauthorized downloading of programs or content, commercial use of school networks, violation of copyright laws, use of inappropriate language, and transmissions of or searches for obscene material. Should vandalism occur, the individual responsible may be held accountable for the cost of damages, repairs, or necessary replacement. Additionally, the rules and regulations set forth in the Student Handbook may also be applied.

Noncompliance with applicable regulations and procedures may result in suspension or termination of user privileges and other disciplinary actions consistent with the policies Northampton School Committee - Acceptable Use Policy for Staff and Students of the Northampton Public Schools. Violations of law may result in criminal prosecution as well as disciplinary action by the Northampton Public Schools.

Additionally, the Northampton Public Schools shall not be liable for users' inappropriate use of electronic resources or violations of copyright restrictions, users' mistakes or negligence, or costs incurred by users. The Northampton Public Schools shall not be responsible for ensuring the accuracy or usability of any information found on external networks.

4. My device must be virus free and its virus scanning software (Microsoft Security Essentials for a Windows system or Intego for a Mac system are recommended), and must be kept up to date.
5. I understand that if my device causes any problems or creates any network disruptions, I will be asked to cease using it and will disconnect it from the network immediately.

6. I have read, understand, and will follow the NPS Acceptable Use Policy and the NPS Social Networking guidelines, while using my personal technology tools in the district. If I break this agreement, the consequences could include suspension of computer privileges and/or disciplinary action.
7. I understand that the NPS technical staff is **not** responsible for configuring or supporting my personal device, beyond network settings.
8. The NPS networks will only provide Internet access. I understand that my Internet access will still be filtered by the applicable NPS content filter when I am connected.
9. I understand that access to NPS printers or internal network services (such as Starbase or H drives) from my device is not supported.
10. These terms of use are subject to revision by the District

Dangerous driving on or about school grounds will not be tolerated and may result in student's parking privilege being rescinded. Students are NOT to sit in cars or loiter in the parking lot during the school day. After a student is given a warning, they will be suspended.

PARKING LOT RULES:

1. The entire parking lot is for permitted cars only; if your permit is not visible, you will be towed. Everyone must be respectful, driving slowly and cautiously.

MISCELLANEOUS

ADVISORY

Responding to research showing that students perform better in school when they have at least one strong connection to an adult in the building, NHS has implemented an advisory program. Each student is assigned to an advisory group of 10 – 14 students and a faculty member that will remain consistent throughout their four years of high school. The group will meet for 40 minutes approximately 18 times a year with the primary goal of forming a positive bond between the group members and the faculty advisor.

ASSEMBLIES

Courtesy to those participating in the assembly program is expected by all students with the general rules of good conduct observed. No eating of food is allowed in the auditorium. While all students are strongly encouraged to attend mandatory assemblies, students may be exempt from attendance with prior administrative approval. All students are expected to attend their respective class assemblies. Assemblies are not open to the public. If students do not go to the assembly, it will be considered an unexcused absence unless administrative approval is granted. Disruptive students will be asked to leave. Disciplinary consequences will be enforced.

GUIDELINES FOR PROMS and DANCES

1. ADMISSION - No admission after designated time.
2. GUESTS – Sponsoring student of outside guest must fill out permission slip. Pre-approval of guest is required by administration.

5. POLICE/CHAPERONES - Minimum of one (1) policeman is required throughout the entire dance. The number of chaperones will be determined by the number of anticipated students.
6. OUTSIDE OF SCHOOL - After parking cars, students are to come directly into the dance. Any students loitering in the parking lot or on school property after being asked to leave will be subject to police action.
7. All school rules apply.
8. Students must be in school on the day of dance / prom for a minimum of 3 classes.

STUDENT DRESS

Responsibility for student attire rests with the students and their parents or guardians. We expect that students will dress appropriately to the setting. Students' attire must assure both the health and safety of themselves and others. Clothing that is disruptive to the learning environment or considered too revealing or inappropriate to the setting will result in a conference with student, parent or guardian and Assistant Principal. Footwear must be worn at all times. Violations may result in disciplinary action.

ELECTRONIC DEVICES

Electronic devices for communication, playing music or games such as cell phones, Ipods, mp3 players and gaming systems is considered a privilege and not a right at Northampton High School. The use of this type of technology requires respect and responsibility. It is important for students to learn how to appropriately use this technology within a variety of settings and situations. Northampton High School's primary focus is to provide a positive, safe and appropriate learning environment. It is in this spirit that we expect **all electronic devices to be turned off, put away and out of sight before entering all classrooms. Electronic devices are not allowed to be used during class time, unless given explicit permission by the classroom teacher. Cell phones are to be turned off and out of sight during class time.**

Students may utilize these devices before and after school, transition between classes and during lunch. All music players must be used with earphones in an individual's ear. No playing music out loud from music player in hall way or classes is allowed. Failure to follow this policy will result in confiscation of electronic device to be returned at the end of school day. Continued violations may result in loss of electronic device privilege and possible disciplinary action.

SCHOOL / CLASS VISITATION

Any parent / guardian of an enrolled Northampton High student are welcome to visit and / or observe a class or classes at NHS. Visitations / observations will comply with Northampton Public School policy for visitors in the school as detailed in the NPS policy manual, section K1.

Students and families not enrolled at NHS but are considering enrolling should call the Guidance Department to arrange for a meeting with a Guidance Counselor to gather information about Northampton High School. A guided tour of the building will be offered by the counselor or by a National Honor Society student. In most cases these meetings and tours will occur after school. Potential incoming freshman will be invited to attend our annual 8th grade orientation typically held in the first or second week of June.

LIBRARY

The school library is located on the first floor and opens each day at 7:15 a.m. Students may come to the library to fulfill a reference assignment with a class or to pursue independent reading or research. The library remains open until 3:00 p.m. Monday through Thursday; it closes at 2:00pm on Fridays.

All regular library books are charged out for a period of two weeks. If more time is needed, books may be renewed unless other students are waiting to use the material. Magazines and reference books may be checked out overnight after school and must be returned before the start of the first period the following day. Students must pay for lost or damaged books. Anything taken from the library must be checked out at the desk. This also applies to materials which are to be used only for a class period.

CHECK-OUT POLICY

Before a student transfers, withdraws, or graduates, he/she needs to return any textbooks, library books, or equipment and pay any fines. The student will have all his/her teachers sign off on his/her student check-out sheet. Students who fail to return NHS property or pay owed dues will be subject to the following: ineligible to attend senior prom, senior breakfast, graduation, and with holding of final transcript and diploma.

LUNCH PROGRAM

Every student is expected to eat his/her lunch in the school cafeteria. Students may not leave lunch early nor should they exit the building during lunch without prior permission. Exiting the building without permission will result in disciplinary action (detention or suspension.) Lunch must not be consumed outside the cafeteria.

Students are given two options:

1. A copy of the petition will be submitted to the principal a reasonable time in advance of circulation.
2. The petition will be free of obscenities, libelous statements, personal attacks, and within the bounds of reasonable conduct. If the principal is in doubt concerning any of the above conditions, he will be advised by the Superintendent of Schools who may employ the services of the City Solicitor for final determination.
3. The petition may be circulated before the start of classes in the morning and after the end of the last class in the afternoon.

4. The circulation of the petition will in no way interfere with the operation of the school and its contents may not be discussed in any class situation unless specifically related to curricular subject matter currently under study.
5. NO student may be coerced to sign the petition.

STUDENT PUBLICATIONS

Students will enjoy the constitutional rights of freedom of expression. They will have the right to express their views in speech, writing or through any other medium or form of expression within limitations comparable to those imposed on all citizens but specifically designed for children and youth in a school setting.

The School Committee will encourage student publications not only because they offer an educational activity through which students gain experience in reporting, writing, editing and understanding responsible journalism, but also because they provide an opportunity for students to express their views.

All student publications will be expected to comply with the rules for responsible journalism. This means that libelous statements, unfounded charges and accusations, obscenity, defamation of persons, false statements, material advocating racial or religious prejudice, hatred, violence, the breaking of laws and school regulations or materials designed to disrupt the educational process will not be permitted.

DISTRIBUTION OF STUDENT PUBLICATIONS

Any student who desires to distribute a student publication which is not officially recognized as a school publication (as herein defined) should submit such a student publication to the principal of the subject school for review and approval prior to such distribution.

Student publications which are not obscene, libelous or disruptive may be distributed on school property during school hours in areas designated by the principal of the subject school. Distribution which substantially interferes with the normal flow of traffic within the school corridors and entrance ways, which is coercive of any other person's right to accept or reject any publication, or which causes substantial and material interference with "normal school activities" shall not be permitted.

It is the responsibility of the school and its staff to insure that the right of the students to express themselves freely shall not be infringed while at the same time establishing the kind of environment which is necessary for an orderly program of classroom learning.

DEFINITIONS

1. **School day:** means any day during regular or summer session on which regularly-scheduled classroom instruction takes place and excludes Saturdays, Sundays, and official school holidays.

2. **Publication:** means any book, magazine, pamphlet, newspaper, yearbook, picture, photograph, drawing or any other written or printed matter or visual representation, however produced.

3. **School publication:** means any publication, as defined herein, which is composed, compiled, published or distributed under the official supervision of a faculty sponsor.

4. **Student publication:** means any publication, as defined herein, which is composed, compiled, published or distributed by students.

5. **Distribution:** means circulation or dissemination of the student publication to students at the time and place of normal school activity or immediately prior or subsequent thereto by means of handing out free copies, selling or offering for sale, accepting donations for copies of the publication, or displaying the material in areas of the school which are generally frequented by students. In dealing with material which is "obscene" or "libelous," the term distribution refers to dissemination of one or more copies whereas in dealing with all other types of material, the term distribution refers to a substantial circulation or dissemination of the student publication so as to make the student publication generally available to students of the subject school.

6. **Normal school activity:** means organized educational activity of students under the direct supervision of a member of the school staff which includes classroom work, library activities, physical education classes, official assemblies and other similar gatherings, school athletic contests, band concerts, school plays, and scheduled in-school lunch periods.

7. **Minor:** means any person under the age of eighteen (18) years.

8. **Obscene as to minors:** means:

a) whether the average person, applying contemporary community standards would find that the publication taken as a whole, appeals to the prurient interest of minors.

b) whether the publication depicts or describes, in a patently offensive way to minors, sexual conduct specifically defined to mean human masturbation, sexual intercourse or any touching of or contact with the genitals, pubic areas or buttocks of the human male or female, or the breasts of the female, whether alone or between members of the same or opposite sex, or between humans and animals.

c) whether the work taken as a whole, lacks serious literary, artistic, political, or scientific value for minors.

9. **Libel:** is the false and privileged publication by writing, printing, picture, effigy, or other fixed representation to the eye which exposes a person to public hatred, contempt, ridicule, or obloquy, or which causes him to be shunned or avoided, or which has a tendency to injure him in his occupation.

When the publication concerns "public officials;" i.e., those who hold government office; or "public figures;" i.e., those who, by reason of notoriety of their achievements or the vigor and success with which they seek the public's attention, are properly classed as public figures, in order to be libelous, the defamatory falsehood must be made with actual malice; that is, with knowledge that it was false or with reckless disregard for whether it was false or not.

When the publication concerns private individuals, in order to be libelous, the defamatory falsehood must be made negligently; that is, the publisher must fail to exercise the degree of care that a reasonably prudent person would exercise in order to avoid making a defamatory falsehood.
